### Orville Worrell

Graphic Designer

I've always been passionate about graphic design, from my days of growing in Jamaica. Finding creative solutions for clients whether independently or working with a team. I always ready to put my creative juices to the test

Photoshop

Illustrator

Indesign

Team Player

Drawing

Organization

# Jonny's Donuts

## KEY ELEMENTS

**Fresh**  
**Vibrant**

A Fresh Donut poster to be hung inside. The challenge was making the text readable while keeping the donuts as the central focus.

I used a nice bold font. Added some highlights and shadows, then some stylistic elements. Made a icon logo in Illustrator.

> - Projects

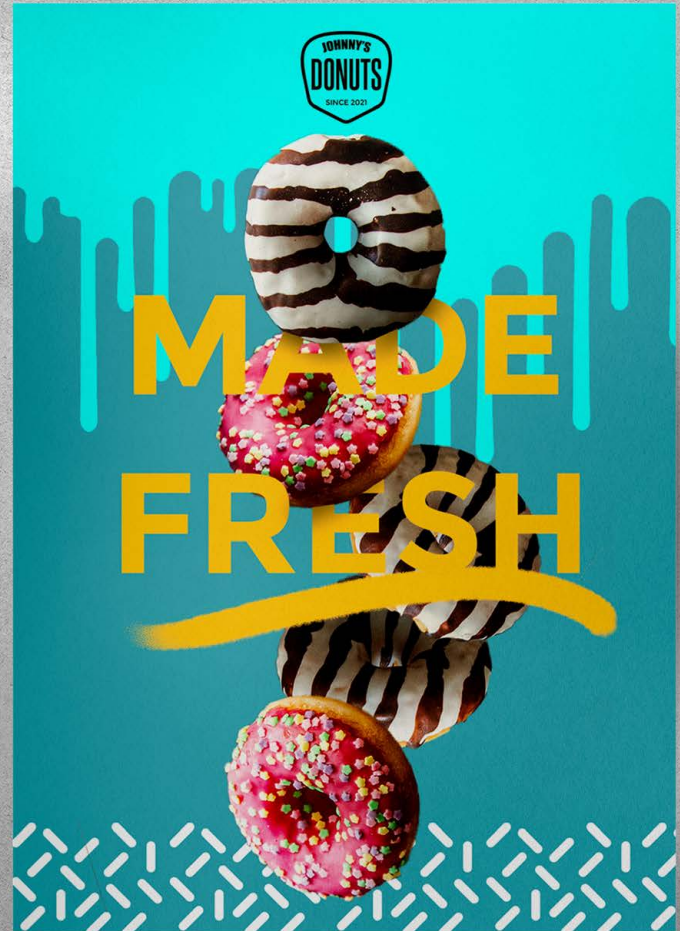

# Jonny's Donuts

## Final Design

placed in a  
mokcup to show  
what it would look  
like hung up.

## Programs Used

Photoshop  
Illustrator

# ARCADE FEST

## Project Outline

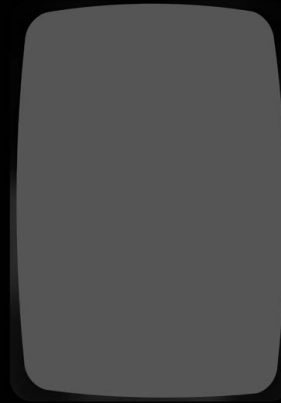

A video game conference for an older style convection. I came up with the concept of making it similar to an old arcade machine.

I added various elements and lighting to create the border. Built a vector map in illustrator with a clear Pac-Man theme.

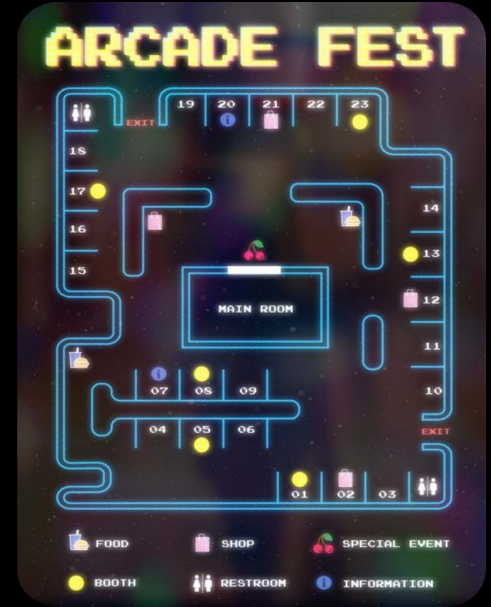

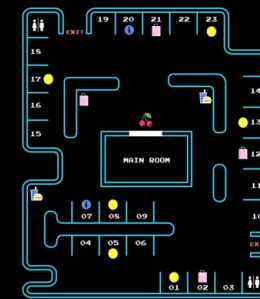

I added a few more details to screen with refections, a pixelation and glow effect.

### PROGRAMS USED

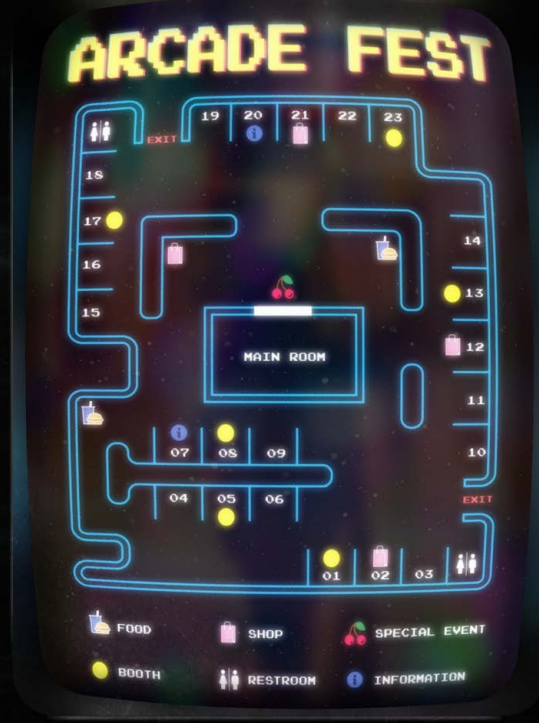

- \_ PHOTOSHOP
- \_ ILLUSTRATOR

### ARCADE FEST

# ARCADE FEST

## Final Design

Added more wear and tear to the overall cabinet and some hightlights to make it feel more realistic.

Placed the final image in a mockup to see what it would look like.

# Posters

## Project

## Outline

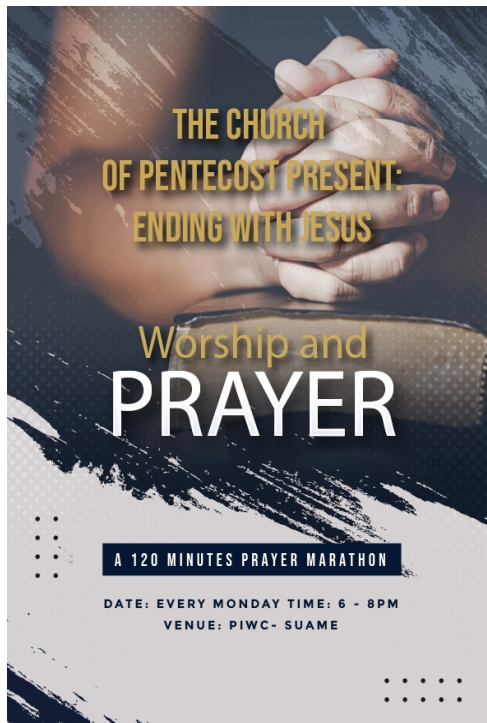

I made these different posters with some dummy text. Tried to make them easy to read and visual appealing.

The themes used:

Educational

Religious

Food Related

> - Have a good  
day.
